AVAILABLE FROM

Áille Health Clinic

Rolls, sticks, cones, kits and accessories, in stock or to order.

MOXA FROM

€6.99

smokeless cones · 50 pcs

WHAT IS MOXA?

Moxibustion is a traditional East Asian technique that warms acupuncture points and areas of the body by burning **moxa**: dried, finely processed mugwort leaf (Ai Ye). It can be held above the skin, placed on the skin as a cone, or contained in a box, chimney or burner.

Choose your moxa

INDIRECT

Rolls & sticks

Pure A-grade rolls, XL rolls and pre-cut pieces, or low-smoke sticks with a hollow centre.

FROM €8.40

ON THE SKIN

Stick-on cones

Pure or smokeless cones with an adhesive base for stable placement. 50 per box.

FROM €6.99

READY TO USE

Moxa kits

Golden Moxa chimney kit, Pure Moxa Tube Kit, or the hands-free belt kit.

FROM €27.02

TOOLS

Accessories

Six-hole moxa box, moxa box, navel pipe, moxa shovel and loose moxa punk.

FROM €7.74

Golden Moxa Kit — €36.35

5 reusable chimneys, 60 A-grade moxa rolls and 60 adhesive plasters. An adjustable top vent controls the heat, and moxa never touches the skin.

Pure Moxa Tube Kit — €45.67

Reusable holder, 3 XL pure moxa rolls (30 × 150 mm), ash holder and scraper, for controlled heat over a defined area.

Moxa Belt Kit — €27.02

Adjustable belt with 3 vented copper burners for hands-free moxa. Moxa rolls are sold separately.

PURE OR SMOKELESS?

Pure moxa gives the traditional aroma and burn, and is best in well-ventilated rooms. **Smokeless moxa** is a low-smoke formula that suits shared clinics.

SAFETY IN CLINIC

Never leave burning moxa unattended. Check skin sensation and heat often. Keep a snuffer, ash tray or sand close by, and make sure moxa is fully out after use.
